Subject: Alabama Statement

Dear Dr. Jacobs,

I'm writing to voice my disappointment in NOAA for releasing a statement rebuking the Birmingham NWS office and supporting the fake weather statements made by the executive branch in regards to Hurricane Dorian. Birmingham was right to state facts about the hurricane not impacting Alabama residents. NOAA then caving to the lunacy and fragile egos of the current executive branch was awful.

I no longer trust this agency to provide me with accurate, scientific, non-partisan forecasts.

Sadly,
Meg

P.S. Global warming exists and we all (still) know it.
